The Induction task:

The First World War has had a profound effect on the development of the World. This is shown in the social impact of the huge loss of life, the territorial restructuring of many parts of the world and its stimulation of major technical advances. Consequently, there have been numerous articles, books and TV programmes dedicated to reviewing the impact of this war and how it shaped the world you live in today.

Using the following two websites and any others you find I would like you to write an 800 word answer to question 1 and notes on Question 2:
